Note In Case, The note read:

"Unfortunately this is the only way to make good the frightful wrong I have done to you and to wipe out my abject humiliation You understand that last night was only a comedy."

The statement was taken when the 1932 grand jury and the district attorney's office suddenly decided to open the Bern case. Miss Harlow was called before the investigating body in a suite of rooms at the Ambassador hotel.

It is the renting of this suite with funds from the secret service fund of the district attorney's oflice that is under investigation by the present grand jury. Statement Taken Down By Kennelly

Miss Harlow, it was learned, ap-peared at the hotel with an attorney and her mother and step-father. Reveal Facts In Death Of Bern

One Witness Is Revealed As Suggesting Bern Was Murdered

INVESTIGATING COST OF PROBE

Unternational News Service) LOS ANGELES, Nov. 10-The romance and tragedy of Paul Bern, motion picture producer, and Jean Harlow, star of the silver screen, has been dug up

from the past and made public, at least partially today. The 1934 Lost Angeles county grand jury, emphatically insisting it had no intention of re-opening the investigation of the suicide of Bern in 1932, declared its present probe had only to do with expenditures made by the district attorney's

office.
The original probe, conducted by the 1932 grand jury in strict secrecy was held at a suite at the Swank Ambassador Hotel here. The renting of the suite for the conduct of the investigation was ordered by the foreman of the 1932 grand jury,

it was said. However, the probe did bring out that although Miss Harlow was questioned at the time of her husband's death, which was officially classified as suicide, the testimony was so brief, according to one investigator, that no transcript of it was made.

The re-opening of the case did, however, make public for the first time, evidence taken at the investi-gation shortly after Bern's body, with a bullet hole in the head, was found in front of a mirrow at his home here.
Thought Bern Murdered

It was revealed, for the first time, that at least one important witness at the initial investigation was convinced that Bern, who was the F. H. A. Davis then went on to reveal how he had discovered a small pool of blood near the swimming pool, in front's of Bern's favorite chair on the morning of September 5, 1932. he day when the death was reveal-

The witness also told the investi-gators, at the time, that he had discovered other bloodspots near the swimming pool, and a broken cognac glass.

Another witness at the secret investigation was Trene Harrison. Bern's secretary. She testified she did not believe her employer was happy in his marriage to the glamorous screen beauty.

Not Happily Married

Miss Harrison's testimony, read

SAVE THE AMERICAN ELM

One of the noblest trees in the country, the American elm, appears to be doomed unless speedy rescue is at hand.

Not so long ago the chestnut was all but obliterated by a mysterious

thight, though here and there it is beginning to grow again. The malady which has attacked the elm is known as the Dutch elm disease and its ravages are fatal. The fight against it should begin at once.

The American Forestry Association points out that unless additional funds are promptly provided to continue the work during the day.

winter the disease will be out of control by next summer. The incipient stages were not attacked in time. A million dollars in all should suffice to save the elm now,

The Department of Agriculture is inclined to view the situation ing. passively. Yet it has a tree army of 350,000 men and billions of dollars of emergency funds. American Forests, the magazine of the association, declares that "citizens everywhere should protest the inexcusable breakdown in control work". They should indeed. Much money is being spent on far less important purposes. The department admits this emergency, but does nothing to meet it, says the Philadelphia Inquirer. Such indifference is amazing. It is not as if the elm were an unimportant tree. None other adds more to the beauty of thousands of villages the country over.

Except possibly the maple, no other shade free has made our roads so attractive. Neither oak nor pine can match it in this respect. An American landscape denuded of elms would hardly be American. No great imagination is needed to forecast the effect. It is difficult to believe that the administration will suffer this when the remedy is at hand.

SCIENTIFIC EXPLORER

Admiral Richard E. Byrd is a born explorer, but he is more than that. As an explorer his interest is principally scientific. Strange places are more than just strange places to him.

When Byrd flew over the poles he was not stunt flying, but making a scientific study of the great wastes at the top and the bottom of this sphere. ARMISTICE DAY

WHILE the cause of the present economic depression is disputed by experts, there is more agreement than disagreement that one of the factors is the commercial convulsions to which the World war subjected the world.

If that is remotely true then Armistice Day apart from its mandate to the heart of mankind also imposes one on the pockcibook to see to it that no more wars occur. For it is a fact suffering? SAVE THE AMERICAN ELM

One of the noblest trees in the country, the American elm, appears

to be doomed unless speedy rescue is at hand.

Not so long ago the chestnut was all but obliterated by a mysterious blight, though here and there it is beginning to grow again. The malady which has attacked the elm is known as the Dutch elm disease and its ravages are fatal. The fight against it should begin at once.

The American Forestry Association points out that unless additional funds are promptly provided to continue the work during the at bed time or the latter part of the winter the disease will be out of control by next summer. The incipient stages were not attacked in time. A million dollars in all should suf-

The Department of Agriculture is inclined to view the situation passively. Yet it has a tree army of 350,000 men and billions of dollars of emergency funds. It is not as if the elm were an unimportant tree. None other adds more to the beauty of thousands of villages the country over.

Except possibly the maple, no other shade tree has made our roads so attractive. Neither oak nor pine can match it in this respect. An American landscape denuded of elms would hardly be American. No great imagination is needed to forecast the effect. It is difficult to believe that the administration will suffer this when the remedy is at hand.

When you are asked for help you must try to give it.... Even though you are fumbling and litte uncertain yourself. Even though you have made many mistakes yourself, even though you face problems that you, too, cannot solve, you must do some thing to smooth the path a little for that other fellow who has come to you in his need. And, perhaps, though you aren't so wisc, either, you have learned something that will help another human creature...

A bit of your experience, a scrap of your hard-won learning, these may be more helpful to another than they are to yourself.

Pictures on the wall books about cats, the corner where he slept, the yard outside where he used to play and doze and lie quietly listening to the birds. All these are but a bitter increase of her suffering....And she writes to me, a faraway, stranger, asking: "Do you think you could help me to get over this terrible grief about losing my cat? The malady of rest, sleep, quiet and freedom pomattox.—Macon Republican. which has attacked the elm is known as the Dutch elm disease and its ravages are fatal. The fight against it should begin at once.

The American Forestry Association points out that unless additional funds are promptly provided to continue the work during the at bed time or the latter part of the winter the disease will be out of control by next summer. The incipient day stages were not attacked in time. A million dollars in all should suffice to save the elm now.

Safety Talk Heard Will Be Discussed

Report Of Southern Convention Will Be Given By L. A. Haug Sunday Morning

Preparatory to the annual Every Member Visitation in the St. Paul's Lutheran church, West Grant street, there will be a series of informa-tional addresses on "The Church at Work."

Sunday morning at the 10:40 English service L. A. Haug, a member of the church, who was a delegate to the Savannah, Ga. United Lutheren convention, will speak of the "Work of the Church Abroad" and give his personal impressions of "The Church at Work". On the following Sunday the pastor will speak on "Church Active at Home."

One of the striking actions of the United Lutheran conference at Savannah, was the matter of "Unity" of the Lutheran church bodies in America. Seven different synods requested the United Luth-eran church to take action on a closer union and there were twelve resolutions adopted towards closer The basis of union is to be with

such groups "that accept the Holy Scriptures as the only rule and standard of faith and life, by which all doctrines are to be judged, and who sincerely receive the historic confessions of the church, especially the unaltered Augsburg confession and Luther's small catechism, as witness of the truth and a presentation of the correct understanding of our predecessors; and we set up no standard of tests of Lutheranism Close Sunday Eve apart from them or alongside of them."

The convention did not authorize blanket proposal for the union of Christendom or any apology for obscuring the distinctive tenets of

the Lutheran faith.
At present there are three large general bodies of Lutherans in America and several smaller groups caused by language differences, merely. There is a total of over 3 million Lutherans in America, which it is hoped the above action will unite into one general body.

chronology for 24 hours ending at 3:30 p. m., November 9, eight arrests on charges as follows: Violation of traffic regulations, 4; suspicion, 2; drunkenness, 1, and

Mayor Mayne has submitted a report of police activities for the month of October which shows that month of October which shows that 575 autoists were arrested for one of three violations of the motor laws of the state or city. One hundred and sixty-seven were arrested for speeding, 271 for violating traffic regulations, and 137 for parking too long in certain sections. In all, 727 were arrested during October. Among the charges were: Drunkenness and disorderly conduct, comness and disorderly conduct, com-plaint of parents, suspicion, fight-ing, keeping a disorderly house, visiting, keeping a disorderly house, visiting a disorderly house, drunkenness and begging, drunkenness and fighting and larceny of an auto. The fines and forfeits collected amounted to \$3.273.50 and the total was raised to \$3.378, 55 through five dance hall licenses (\$75) and 27 permits to hold dances. Several dollars were collected for telephone calls which is included in the total.

A. Reid English, the sealer of weights and inspector of measures for the city, made many inspections during October, according to a report he has submitted to council. It was not necessary for him to condemn one scale or parkage, he reported. In fact, he had to make only 17 adjustments of more than 300 inspections. He tested 10 truck scales, 21 other platform scales, 14 even balance scales, eight hanging springs, 81 computing scales, 14 oil pumps, 32 gasoline pumps, and 190

packages. He adjusted three even balance scales, eight computing scales and six oil pumps.

Banquet Tuesday

Dr. William L. Steen, health officer for the city, during October made 38 examinations of water. Twenty-four of the tests were made of city water and 14 of samples taken from privately owned wells and springs. He also tested 32 samples of milk sold here to determine the bacteria per cwt. In addition the health department attaches issued five permits for hauling rubsued five permits for hauling rub bish. They brought the city \$1.25. Seventeen health certificates were submitted to the health officer by persons engaged in the handling of foodstuffs and three throat cultures were examined.

Drunkenness here during October exceeded months during the probibition period. In those days about 50 persons were arrested each month. Seventy-four were arrested during October and 12 others faced a double charge, one of which was for drunkenness. for drunkenness.

Council has been informed that truckers who rented their trucks to the city have "worked out" taxes amounting to \$223.15 which were delinquent since 1933. The city paid approximately \$1 an hour rent for each truck and also furnished the oil and gasoline. The RWD paid the drivers 60 cents an hour.

AROUND CITY HALL

Police chronology for 24 hours ending at 3:30 p. m., November 9, eight arrests on charges as follows: Violation of traffic regulations, 4; suspicion, 2; drunkenness, 1, and

Mayor Mayne has submitted a re-port of police activities for the month of October which shows that 575 autoists were arrested for one of three violations of the motor laws of the state or city. One hundred and sixty-seven were arrested for speeding, 271 for violating traffic regulations, and 137 for parking too long in certain sections. In all, 727 were arrested during October.
Among the charges were: Drunkenness and disorderly conduct, complaint of parents, suspicion, fighting, keeping a disorderly house, visiting a disorderly house, durabanger. ing a disorderly house, visit-ing a disorderly house, drunkenness and begging, drunkenness and fighting and larceny of an auto. The fines and forfeits collected amounted to \$3,273,50 and the total was raised to \$3,378, 55 through five dance hall licenses (\$75) and 27 permits to hold dances. Several collars were collected for telephone calls which is included in the total.

A. Reid English, the sealer of weights and inspector of measures for the city, made many inspections during October, according to a report he has submitted to council. It was not necessary for him to condemn one scale or parkage, he reported. In fact, he had to make only 17 adjustments of more than 300 inspections. He tested 10 truck scales, 21 other platform scales, 14 even balance scales, eight hanging springs, 81 computing scales, 14 ell. pumps, 32 gasoline pumps, and 190

packages. He adjusted three even balance scales, eight computing scales and six oil pumps.

Dr. William L. Steen, health officer for the city, during October
made 38 examinations of water.
Twenty-four of the tests were made
of city water and 14 of samples
taken from privately owned wells
and springs. He also tested 32 samples of milk sold here to determine
the bacteria por cut. In addition the bacteria per cwt. In addition the health department attaches issued five permits for hauling rub-bish. They brought the city \$1.25. Seventeen health certificates were submitted to the health officer by persons engaged in the handling of foodstuffs and three throat cultures were examined.

Drunkenness here during October xceeded months during the prohiexceeded months during the proni-bition period. In those days about 50 persons were arrested each month. Seventy-four were arrested during October and 12 others faced a double charge, one of which was for drunkenness.

Council has been informed that truckers who rented their trucks to the city have "worked out" taxes amounting to \$223.15 which were delinquent since 1933. The city paid approximately \$1 an hour rent for each truck and also furnished the oil and gasoline. The RWD paid

Provisions Of Proposed New Fireworks Law Now Before Council

Changes in the regulations on ed temporarily or permanently in sale of fireworks in the city of New Castle are proposed in an ordinance now pending before council, introduced at the meeting on Friday by Mayor Charles B. Mayne. In New Castle at the present time sale and use of all kinds of fireworks are SECTION 7. Except as permitted prohibited entirely. The new orby Section 9 of this ordinance, it dinance would modify that law, and shall be unlawful to sell or use: vould allow sale and use of some kinds of fireworks.

At the meeting yesterday, sug-gestion was made that public meeting be held before final action was on the move. As a means of enlightenment for the people of the y, the ordinance is presented in this article.

The bill which has been intro-duced was presented to Solicitor White and council by W. L. Crooks, Dayton, O., legislative agent for the Fireworks Manufacturers association of the United States. He told council that as the result of the association's study of accidents from fireworks statistics showed that more occurred in prohibited areas than in those regulated.

The bill reads as follows: Proposed Ordinance

SECTION 1. Be it ordained and nacted by the City of New Castle, Pennsylvania, in Council assembled, and, it is hereby ordained and en. acted by the authority of the same hat from and after the approval of this ordinance, it shall be unlawful for any person, firm or corporation to sell, offer for sale, or expose for sale, or have in his, her or its possession with intent to sell, use, discharge or cause to be discharged, ignited, fired or otherwise set in action, within the limits of the City New Castle, Pennsylvania, any fireworks, firecrackers, sparklers or ther pyrotechnics, except in compliance with the provisions of this

SECTION 2. No person, firm or corporation shall store, sell or offer for sale, any articles described in Section 1 of this ordinance without first obtaining a license therefor from the Office of the Mayor. The fee for such license shall be Five Dollars (\$5.00), and application for such license must be made to the Office of the Mayor on or before June 15th of each year.

SECTION 3. None of the articles described in Section 1 of this ordinance shall be stored in any

Mrs. W. L. Cosel was the speaker and she had "Peace" as her sub-ject and in her talk she stated that one of the factors that delayed the outlawry of war is the activity of the manufacturers of arms and ammunition. In a recent investigation by the senate committee some astonishing facts were revealed that the government was being used as sales agencies to promote the business of the manufacturers and should there be another war our boys would be killed by weapons made in the United States.

The program also included a reading by Lena May McConnell and a playlet, "The One O'Clock Train," presented by Grades 2 and 3, with Garlo Shaw as the director. There were numbers by an instrumental trio, Louise, Ethel and Betty Municipal and a hou's quartat from Munnell and a boy's quartet from the East Brook high school.

evening.

Mrs. W. L. Cosel was the speaker ject and in her talk she stated that one of the factors that delayed the Mrs. King. outlawry of war is the activity of the manufacturers of arms and amnunition. In a recent investigation by the senate committee some astonishing facts were revealed that the government was being used as sales agencies to promote the business of the manufacturers and should there be another war our boys would be killed by weapons made in the United States.

The program also included a reading by Lens May McConnell and a playlet, "The One O'Clock Train," presented by Grades 2 and with Garlo Shaw as the director.
 There were numbers by an instrumental trio, Louise, Ethel and Betty Munnell and a boy's quartet from the East Brook high school.

Develop Habits

One of the chief objectives in the elementary school literature program is to develop within the child such habits and tastes in regard to such habits and tastes in regard to literature that he will carry forward this important and fruitful activity after his school days are over, It has been said that the chief thing a child carries with him from school to serve him through school to serve him through life is his ability to read. We must therefore provide for his cultural life by providing him with such an abundance of reading material, factual and recreatory, that it will contribute to his widening appreniations and impressions viations and impressions.

It Was A Roosevelt Vote. 900 Russian Planes.

We Have Incidents

Our Soul Interests Him. By ARTHUR BRISBANE

THE LANDSLIDE election is | talled an indorsement of the "New Deal," but it is not that. The country doesn't know what the "New Deal" is, except that it changes frequently, and indicates a plan to take money from anybody that has it, dividing it among the others while it lasts, and the further intention . to have everybody's private business run by public officials.

The landslide is an indorsement of FRANKLIN D. ROOSEVELT as an individual.

Last Tuesday the people did not vote for NRA, CC, or any other initials. They voted for Franklin D. Roosevelt, who has dealt energetic-Roosevelt, who has dealt energetically with unemployment and other problems, while the Republican party has been dancing around almlessly, saying in effect:
"Please elect'me, It is true that I don't do anything, and have no plans, but still, please elect me."

SENATOR BORAH, who is, or was, a Republican, speaking of the Democratic election figures, warns the Republican party that it must "reform or perish." For the moment it seems inclined to perish.

What sort of a party would come

What sort of a party would come over and expire? Perhaps it would be a more radical party, with Democrats slowly turning to the conservative right.
Senator Borah puts it in few

words:
"The people were asked to stop a program without any sub-stitute being offered."

CAPT. RICKENBACKER, America's best fighting flier, as this is written, is flying from the Pacific to the Atlantic in command of a Douglas air liner, trying to break the coast-to-coast record. He expected to fly sixteen or seventeen thousand feet up, where clouds and fogs cause little trouble, and the thin atmosphere offers less resistance.

Flying progresses steadily here, thanks to American initiative.

(Capt. Rickenbacker landed at Newark airport at 8:47 o'clock last night, making the coast-to-coast flight in 12 hours and 4 minutes and breaking the record previously set by him by 58 minutes.)

WASHINGTON might ask Mr. J. T. Trippe, head of the Pan-American Airways, about the Russian air-

can Airways, about the Russian airdrome, situated about 150 miles north of Vladivostok.

On that one air field, aimed directly at Japan, Russia has 900 airplanes, of which 300 are bombing planes, each carrying four engines. That sounds businesslike.

JAPAN MIGHT be interested in this statement of a Russian official: "Japan has waited three years

too long, if she ever meant to attack Russia effectively. If an attack were made now, Russia would pay little attention to Japanese soldiers or warships, content to destroy by bombing and poison gas every important industrial center in Japan. That will be the objective in modern

warfare.
"We have all Japan's industrial centers marked out, of course, with plans for visiting them efficiently."

HAS ANY country made, without

saying anything about it, efficient plans for reaching important United States centers, including the political center in which the White House and capitol are located? It would be easy to visit those centers now.

NEWTON D. Baker, Secretary of War under Woodrow Wilson, says, "We live today in a world that is at the mercy of incidents," and urged the United States to join the League of Nations, "with certain modi-

It Was A Roosevelt Vote. 900 Russian Planes.

We Have Incidents

Enough.

Our Soul Interests Him. By ARTHUR BRISBANE

THE LANDSLIDE election is balled an indorsement of the "New Deal," but it is not that. The country doesn't know what the "New Deal" is, except that it changes frequently, and indicates a plan to take money from anybody that has it, dividing it among the others while it lasts, and the further intention to have everybody's private business run by public officials.

The landslide is an indorsement of FRANKLIN D. ROOSEVELT as an individual.

Last Tuesday the people did not vote for NRA, CC, or any other initials. They voted for Franklin D. Roosevelt, who has dealt energetically with unemployment and other problems, while the Republican party has been dancing around aimlessly, saying in effect:

"Please elect me. It is true that I don't do anything, and have no plans, but still, please elect me."

SENATOR BORAH, who is, or was, a Republican, speaking of the Democratic election figures, warns the Republican party that it must "reform or perish." For the moment it seems inclined to perish.

What sort of a party would come up if the old elephant should roll over and expire? Perhaps it would be a more radical party, with Democrats slowly turning to the conservative right. Senator Borah puts it in few

"The people were asked to stop a program without any substitute being offered."

CAPT. RICKENBACKER, America's best fighting flier, as this is written, is flying from the Pacific to the Atlantic in command of a Douglas air liner, trying to break the coast-to-coast record. He expected to fly sixteen or seventeen thousand feet up, where clouds and fogs cause little trouble, and the thin atmosphere offers less resistance. Flying progresses steadily here,

(Capt. Rickenbacker landed at Newark airport at 8:47 o'clock last night, making the coast-to-coast flight in 12 hours and 4 minutes and breaking the record previously set by him by 58 minutes.)

WASHINGTON might ask Mr. J. T. Trippe, head of the Pan-American Airways, about the Russian airdrome, situated about 150 miles

north of Vladivostok. On that one air field, aimed directly at Japan, Russia has 900 airplanes, of which 300 are bombing planes, each carrying four engines. That sounds businesslike.

JAPAN MIGHT be interested in this statement of a Russian official: "Japan has waited three years too long, if she ever meant to attack Russia effectively. If an attack were made now, Russia would pay little attention to Japanese soldiers or warships, content to destroy by bombing and poison gas every important industrial center in Japan. That will be the objective in modern

"We have all Japan's industrial centers marked out, of course, with plans for visiting them efficiently."

HAS ANY country made, without saying anything about it, efficient plans for reaching important United States centers, including the political center in which the White House and capitol are located? It would be easy to visit those centers now.

NEWTON D. Baker, Secretary of War under Woodrow Wilson, says. "We live today in a world that is at the mercy of incidents," and urged the United States to join the League of Nations, "with certain modi-

Season Closes Successfully For East New Castle Team Friday

UNION RALLIES IN LAST QUARTER

Before the largest crowd of the season, Shenango high school's Blue and Gold gridders closed the 1934 season in a blaze of glory on Friday afternoon on the Shenango field, scoring an impressive 25-13 triumph over a fighting Union high team. over a fighting Union high team.
The game was replete with action and thrilled the gathering of several hundred admirers of both elevens.

During the first five minutes most

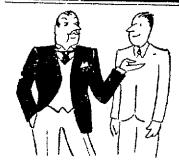

of the playing was confined to mid-field. After Shenango kicked the oval to Schaus, who returned to the 35 before being halted, Tanner quick as a hawk, recovered a Union fum-ble on the 35. From the 40 yard mark. Tanner tossed a perfect pass to Hortig who caught it on the 25 and raced over the Union goal line for the initial touchdown of the tilt. Tanner heaved the ball to Mills for the extra point, but the pigskin was grounded. Score, Shenango 6, Union 0.

Union took the ball following the kick off, tried a line buck and a pass and then elected to punt. Shenango received the ball out of bounds on the 45 and advanced it to the Union 48. as the first quarter ended.

48. as the first quarter ended.

In the second period, the school-boy elevens played cautiously. Neither team was able to advance the ball within the 25 yard chalk mark. The gridders left the field at the half with Shenango leading, 5-0. In the third period. Shenango pirited rally down the field resulted in the second touchdown. From mid-field, Shenango worked the ball down to 25, through the line bucks of "Powerhouse" McConahy and Tanner. Tanner, on a fake reverse, fumbled the ball, picked it up and raced to the 1 yard line before being tackled. McConahy punched his way through the center of the line way through the center of the line for the second Shenango touchdown. Tanner annexed the extra point through center. Score, Shen-ango 13, Union 0.

A break late in the same period paved the way for the third touch down for the East New Castle representatives. Schaus took Shenango's punt and knifed his way to the 23. On the following play, a Union 23. On the following play, a Union gridder fumbled and Petro took the ball on the 20 for Shenango, Union was penalized 5 yards for being off-side on the next play. On a double pass, McConaby to Tanner, around right end, Coach Raney's eleven crossed the Union goal line

Immediately following the kick-off, the Unionites fought like wolves and started a steady march down the field. Two sweet passes, Schaus to Thompson and Schaus to Mateja netted 25 yards. Just before the per-iod ended, Schaus broke through the Shenango line for 5 yards, bringing the ball to Shenango's six, as the third quarter ended.

Shenango demonstrated unusual

defensive ability, holding Union on downs. Shenango tried two plays and a weak kick gave Union the ball on the 45. Realizing that Union's only chances of scoring were thru passes Schaus threw a long pass to Thomp-son who parked himself under the ball on the 23 and ran the remain-der of the field for a Union touch-down. THE ITALIAN writer, Luigi Pir andello, wins the Nobel prize for literature, worth about \$45,000. After a visit to the United States 1925. Pirandello announced his intention to return and "make a study of the American soul." This country puzzled him in the days when we had "real money," and he said of Americans:

"They throw their money away on art galleries, universities, foundations. They race about the country in high-speed trains and autos and airplanes. They take ships to all the four corners of the earth." It would be as interesting to read Pirandello's analysis of the 'American soul" as it would be to read an analysis of Mussolini's soul by Aime

THE ITALIAN writer, Luigi Pirandello, wins the Nobel prize for literature, worth about \$45,000. After a visit to the United States in 1925, Pirandello announced his intention to return and "make a

study of the American soul.' This country puzzled him in the days when we had "real money," and he said of Americans: "They throw their money away on art galleries, universities, foundations. They race

about the country in high-speed trains and autos and airplanes. They take ships to all the four corners of the earth." It would be as interesting to read Pirandello's analysis of the 'American soul" as it would be to read an analysis of Mussolini's soul by Aime

SEVERAL THOUSAND AT CAPITAL UNEASY

By SYDNEY H. EIGES International News Service Staff

Correspondent HARRISBURG, Nov. 10.—Political speculation today played about the cabinet governor-elect George H. Earle will choose to guide the commonwealth's first Democratic adtury through the cruicial four years which lie ahead.

Earle himself remained silent on his cabinet choices, announcing he will not turn his thoughts to the delicate task of choosing his advisers until he has taken a brief vacation now that his arduous campaigning

has ended. Capital Workers Apprehensive A wave of apprehension, mean-while, swept the ranks of the several thousand workers at the capital here as well as the far flung forces of the state highway department.

They were mindful of Earle's campaign pledge to oust "all Republican political hacks" and "Grundy and Mellon Lieutenants" in the "house-

publicans who deserted their party to sweep him into office in Tues-
